Front-End Web Developer

2021 – Present

- Project Scope: personal web development portfolio showcasing my best works.
- Conceptualized and delivered an incredibly responsive layout using HTML & SCSS.
- Optimized and achieved responsive images that change on different screen sizes and color scheme preferences.
- Created a modal system using JavaScript for hidden sub-content.
- Utilized a JavaScript carousel library for projects and a third-party service for handling form emails.

Projects

Link Profile

Front-End Web Developer

2022

- Project Scope: profile of links to many profiles.
- Learned preprocessing with SCSS and package management with NPM to better manage and develop styles.
 - Coded a functional link carousel using JavaScript.
 - Improved accessibility by implementing best practices while testing with browser developer tools.
 - Implemented Google analytics before deploying to GitHub pages.

Start Menu

Front-End Web Developer

2022

- Project Scope: start menu & guide for code playground
- Utilized a CSS Library called Open-Props
 - Developed a multi-theme toggle using SCSS and JavaScript
 - Built a toggleable search bar to quickly query multiple search engines.
 - Constructed a menu with links to page menus and drop-down links for sub-projects

Profile Summary

Honest front-end developer with 4+ years of experience learning and working with web technologies. Proficient with CSS and JavaScript. Seeking to break into the industry with a proven ability to build responsive, pixel-perfect, and user-friendly front-ends for websites and web apps. With a passion for both knowledge and structure, I am driven to learn and grow as both a developer and an individual. Ready to apply my passion for coding to an open-minded and creative team to develop quality solutions.
