Front-End Web Developer

2021 – Present

Project Scope: personal web development portfolio showcasing some of my best work.
- Conceptualized and delivered an incredibly responsive layout using HTML & SCSS.
- Built features such as a modal and theme switch using JavaScript.
- Utilized a JavaScript carousel library for projects and a third-party service for handling form emails.

Projects

Link Profile
Front-End Web Developer

2022

Project Scope: My profile menu of personal links across the web.
- Learned preprocessing with SCSS and package management with NPM to better manage and develop styles.
- Coded a functional carousel for advocacy links using JavaScript.
- Improved accessibility by implementing best practices while testing with browser developer tools.

Start Menu
Front-End Web Developer

2022

Project Scope: personal start menu & guide for code playground; a place for smaller projects and learning.
- Developed a multi-theme toggle using SCSS and JavaScript.
- Created a toggleable search bar to quickly query multiple search engines.
- Constructed a complex navigation menu and Deployed to GitHub pages.

Profile Summary

Honest front-end developer with 4+ years of experience learning and working with web technologies. Proficient with CSS and JavaScript. Seeking to break into the industry with a proven ability to build responsive, pixel-perfect, and user-friendly front-ends for websites and web apps. With a passion for both knowledge and structure, I am driven to learn and grow as both a developer and an individual. Ready to apply my passion for coding to an open-minded and creative team to develop quality solutions.
